August 1, 2012

Dear Students, Faculty, Staff, and Administrators,

The Board of Regents of the Regional University System of Oklahoma (RUSO) wants to ensure a safe, ethical, and positive working and learning environment at each RUSO university. With this aim in mind, RUSO has initiated a phone and internet-based reporting system called the “RUSO Tip Line”, managed by EthicsPoint (www.ethicspoint.com). While all of the RUSO universities have effective processes in place for student, employee, faculty, and community questions and concerns, RUSO continually strives to be proactive in maintaining the ethical standards expected of our public institutions. The RUSO Tip Line is now in place for that purpose.

To submit a potential concern using the RUSO Tip Line, please visit www.ruso.ethicspoint.com which is a secure server administered by EthicsPoint or by calling toll-free at 866-898-8438. An EthicsPoint Contact Center Specialist will facilitate the call compiling all your required information.

This RUSO Tip Line is intended to complement existing management and supervisory oversight. Everyone is still encouraged to bring concerns to their supervisor, Human Resources, Affirmative Action, or other campus entities as appropriate and resolve problems or disputes through established channels whenever possible.

If you have any questions, please do not hesitate to contact the RUSO administrative office.

Sincerely,

[Terry Matlock]

Terry Matlock, Chair
Regional University System of Oklahoma
