Master Plan

It's an exciting time to be a RiverHawk. Northeastern State University has embarked on development of a Campus Master Plan, the first in the university's history. The Master Plan will provide a long-range vision for the university, encompassing all three campuses -- Tahlequah, Broken Arrow and Muskogee. The goal is to provide a single, unified master plan for the university, while respecting the unique identity of each of its three access points. This is the beginning of a 16-month inclusive process that is comprised of five steps. The process is designed to encourage consensus building by providing numerous outreach opportunities for both campus and community constituents.

The five-step master planning process starts with a Discovery phase. It serves as an introduction to campus and an opportunity to establish goals for the future direction of the university. The second task is called Analysis and is used to further understand each campus by its systems (vehicular, pedestrian, building uses and natural features) and its space utilization. Once the information is gathered and accessed, three concept ideas are generated for the third phase of the project, Idea Generation. The intent is to derive a single preliminary Campus Master Plan from the best ideas presented in the three concepts. Step four, known as Refinement, provides time to review the master plan and make detailed adjustments. Task five documents the entire process into a report that will be used as a tool for addressing the physical, social, intellectual, and sustainability challenges NSU will face in the approaching decades. It is designed to provide a realistic roadmap for implementation of the recommendations.

The Master Plan will be a collection of powerful ideas -- a tool that will align the academic, spatial, fiscal and physical vision for the university. This opportunity based document will be driven by principles. It will identify short- and long-term strategies that will be visionary for the future of the campus, yet realistic. The Master Plan will provide a flexible framework for campus development. It will establish capital priorities and optimize resources and adjacent opportunities. Importantly, the Master Plan will be participatory and consensus based, implementable and defensible.

Would like to hear about the future of Wilson Hall. Myself and other alumni would like to put some positive input about the preservation of Wilson Hall for future students and staff options.

Clark D. Brown · 11 months ago

Be sure to check out the Campus Open House meeting on Wednesday to hear about the Master Planning Process and the Discovery and Analysis phases:

5:30-6:30 p.m.

Campus Open House

Topic: Presentation of Analysis Findings and Environmental Scan

Invites: All campus constituents welcome

Location: UC Ballroom Lounge

Alexis Watt

10 months ago

I would like to know about Seminary Hall. That is the building with the most history and should stay having classes. Maybe the university should consider their previous promises for renovations with Cherokee Nation

4

Susan Frost

4 months ago

Nearly every classroom is burning up, no matter which building your in, everyone agrees. Could we please lower the acceptable temperature for the classroom? Also, a classroom that is full of hot students generates a lot of extra heat, so could we also have doorstops for use when hallway is cooler for air circulation. I go to Seminary Hall, the Business bldg.

I know the system is old & all the usual excuses, but could it be time for a all new system?

---hot & sweaty

Emily

6 months ago

I would like the Broken Arrow campus to have a school nurse.

1

Barb Daily

6 months ago

Are the three conceptual plans presented at the meeting last evening, 4/25/13, available to view on-line?

1

CAMPUS MASTER PLAN

Purpose of Plan

- 1st Master Plan in University's History
- Encompasses all 3 NSU Campuses
- Embraces Campus and Community
- Provides a Long-Range Vision
- Visionary yet Realistic
- Flexible Framework for Development
- Optimizes Resources and Adjacencies
- Consensus Based

One University. *Four* Access Points. *One* Vision.

Planning Metrics

Future Enrollment

NSU Master Plan Enrollment Projection

	Headcount Fall 2012	Percent Change	Headcount Fall 2023	FTE Fall * 2023
Tahlequah Campus	6,564	14%	7,500	5,775
Muskogee Campus	298	85%	550	424
Broken Arrow Campus	1,858	59%	2,950	2,272
Total	8,720		11,000	8,470

* Assumes headcount to FTE ratio of .77

NSU Master Plan Faculty/Staff Projection

	Headcount Fall 2012	Percent Change	Headcount Fall 2023
Tahlequah			
Full Time Faculty	231	14%	263
Part Time Faculty	89	14%	101
Staff	573	7%	613
Total	893		978
Muskogee County			
Full Time Faculty *	32	85%	59
Part Time Faculty	12	85%	22
Staff	9	43%	13
Total	53		94
Broken Arrow			
Full Time Faculty	73	59%	116
Part Time Faculty	12	59%	19
Staff	92	30%	119
Total	177		254

Note: Assumes Faculty growth same as enrollment growth
and Staff at one half of enrollment growth

* Assumes full time faculty in new programs by 2023

Refinement Phase

Tahlequah Campus Master Plan Concept

Goals and Objectives:

- Use pedestrian circulation and open space as the organizing elements to better unite campus.
- Strengthen existing campus neighborhoods by locating compatible development within districts.
- Create memorable spaces that enhance campus life.
- Enhance campus edges (Grand Avenue and Crafton Avenue) to project a positive public image and better connect with City.

Uniting Campus. Creating Place.

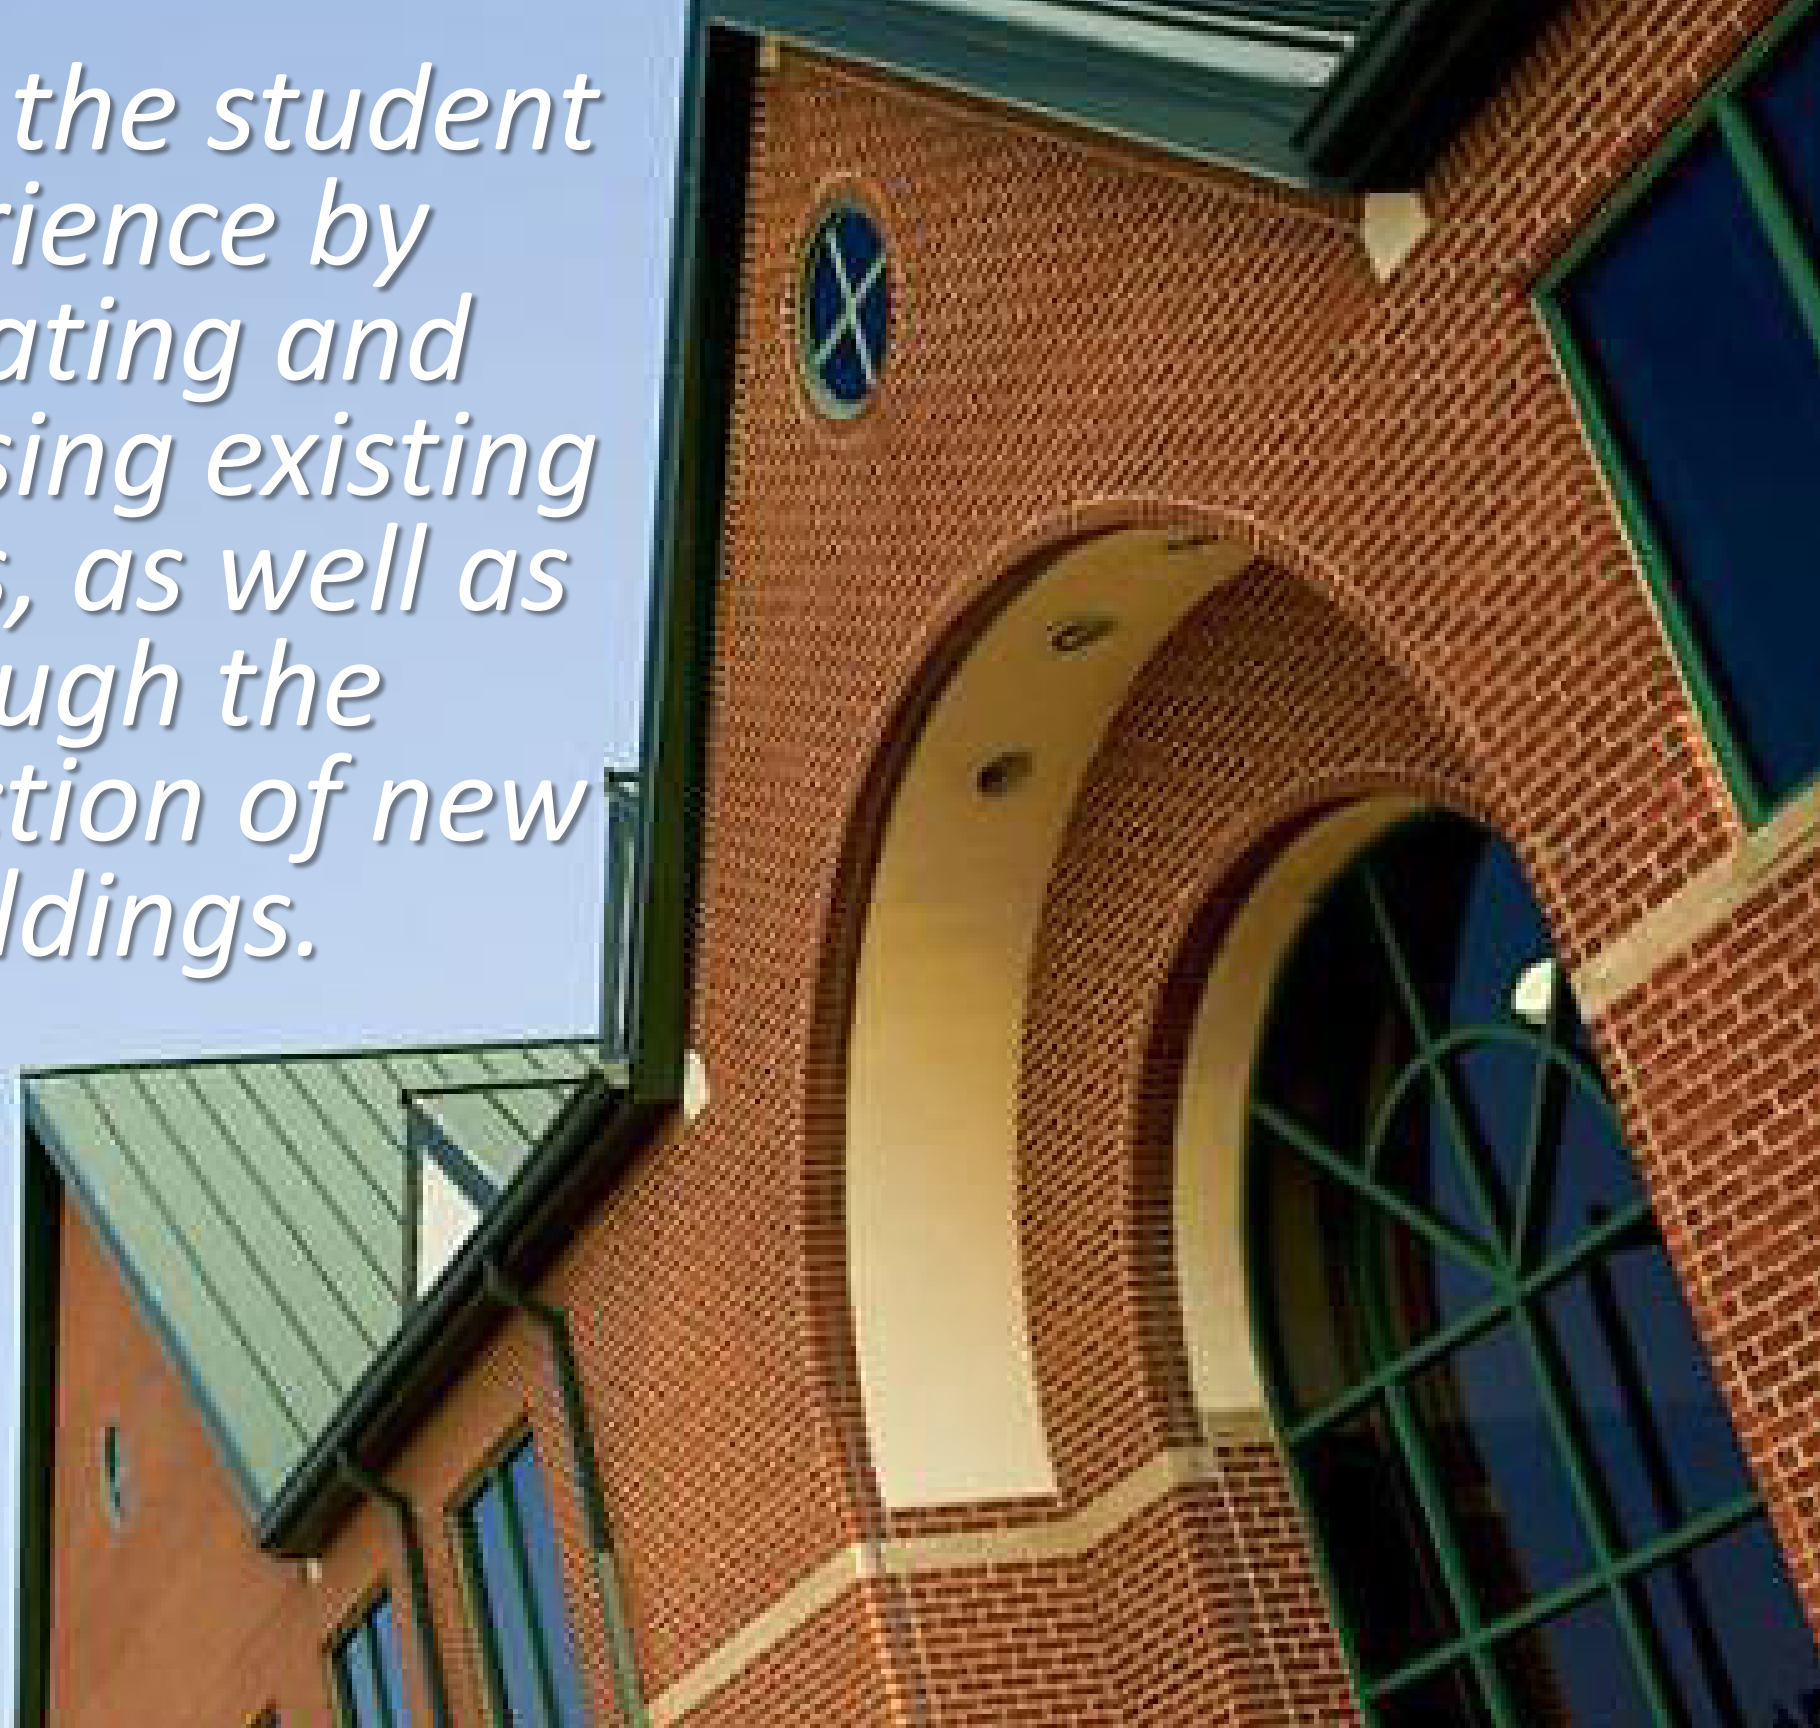

Final Campus Master Plan

Promote a campus environment that encourages innovation, cultivates student success, and remains rooted in NSU's cultural heritage

Guiding Principles

*Improve the student
experience by
renovating and
repurposing existing
facilities, as well as
through the
construction of new
buildings.*

Develop facilities that welcome the community and foster interaction.

Encourage transparency and inclusion in planning efforts by engaging a diversity of perspectives from a broad constituency.

*Position compatible
uses together and
prioritize pedestrians
over vehicles to unite
campus, improve
walkability, and
enhance the campus
experience.*

BE THE CHANGE

Anticipate changes in academic priorities, pedagogy, technology, funding models, and student expectations.

Promote sustainability on new projects by working to conserve natural resources and embracing natural features as amenities.

*Promote a
consistent
design
language to
create visual
unity across all
three NSU
campuses.*

*Preserve the heritage structures
and open spaces that define NSU's
unique identity.*
